

MGT388 Case list for Contract Law

I have made reference to the following cases (or the law therein) in the Contract Law lectures.

I have only added this case list as this was requested by a student. I would caution against reading the full cases but if you are interested, you could look over a case summary. However, this is not a necessary requirement of the course.

The course requires you to understand and use the PPT slides, lecture notes, handouts, and seminar material and feedback plus any additional reading you choose to do in order to understand the subject matter.

As such I must emphasise:

YOU DO NOT NEED TO READ THESE CASES!

YOU ARE NOT EXPECTED TO KNOW THESE CASES!
